Reviewer's report

Title: Ethnicity and thrombolysis in ischemic stroke: a hospital based study in Amsterdam

Version: 2 Date: 14 June 2011

Reviewer: Lynda Lisabeth

Reviewer's report:

Minor Essential Revisions

The new data in table 4 is useful but a bit confusing as the title specifically relates to the ethnic association. I think this information would be better as a stand alone table. This new piece of analysis should also be included in the methods write up.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
