Reviewer's report

**Title:** Brief International Cognitive Assessment for MS (BICAMS): International Standards for Validation

**Version:** 1 **Date:** 26 March 2012

**Reviewer:** Francesco Patti

**Reviewer's report:**

I recommend the publication of the article 'Brief International Cognitive Assessment for MS (BICAMS): International Standards for Validation' by Benedict R et al. This paper provides useful inputs to routinely test and assess cognitive impairment in people with MS and, in my opinion, does not deserve any further comment or clarification by the authors.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
