Reviewer's report

Title: Evaluation of IScore Validity in a Greek Cohort of Diabetic Patients

Version: 1 Date: 25 June 2013

Reviewer: Elissavet Kardami

Reviewer's report:

The article would benefit by some discussion of:

a) potential pitfalls of the approach used to analyze data
b) would data from non-caucasian non-caucasian populations be expected to conform (or not) to the present findings

c) would an accurate 30 day- 1 year prediction affect long term outcome of stroke patients (diabetic or not)

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
