Reviewer's report

Title: Etanercept may induce neurosarcoidosis in a patient treated for rheumatoid arthritis

Version: 5, Date: 21 December 2013

Reviewer: Raffaele D'Amelio

Reviewer's report:

This article reports the third case of neurosarcoidosis occurring in anti TNF treated patients, the first one with etanercept. Clinical description is now exhaustive and the discussion well done. The manuscript is very interesting.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
