Title: Diagnosis of partial complex regional pain syndrome type 1 of the hand: retrospective study of 16 cases and literature review.

Version: 3 Date: 7 February 2013

Reviewer: Annemerle Beerthuizen

Reviewer’s report:

I am satisfied with the detailed answers of the authors to my comments. Whether partial CRPS is a disease on its own is a matter of debate, but in my opinion the current version of the manuscript is well-considered.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
