Minor Essential Revisions

1. Page 6, line 3: English editing: “participants have agreed” and not “participants were agreed”

2. Page 7 lines 11-18: First you write that age was significant (table 1), then you write that the significance was diminished by multiple logistic regression, and then you write that age was significant with the 6 subscales of the FSFI (table 4). It seems that you contradict yourself in this paragraph. Kindly- make it clearer.
