Reviewer's report

Title: High-resolution MRI Findings in Patients with Capsular Warning Syndrome

Version: 2 Date: 1 December 2013

Reviewer: Dheeraj Khurana

Reviewer's report:

Minor revisions:

Reference 4 is not in sequence as per the Vancouver style.
The article requires numerous changes in syntax and language.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
