Reviewer’s report

Title: Memory impairment caused by cerebral hematoma in the left medial temporal lobe due to ruptured posterior cerebral artery aneurysm

Version: 3 Date: 21 January 2014

Reviewer: Paul Krafft

Reviewer’s report:

This is an interesting and educational case report about a patient developing consciousness disturbances and memory impairment. The authors present this case in a well written manuscript including all necessary information. I recommend this manuscript for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
