Reviewer's report

Title: Impact of the clinical context on the 14-3-3 test for the diagnosis of sporadic CJD

Version: 2 Date: 16 June 2006

Reviewer: Alison J Green

Reviewer's report:

General

The points previously raised have been dealt with satisfactorily and I have no further comments.

-----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
