Reviewer's report

Title: Perception of Stroke and Knowledge of Potential Risk Factors among Omani Patients at Increased Risk for Stroke.

Version: 2 Date: 7 August 2006
Reviewer: todd S harwell

Reviewer's report:

General

The authors have adequately addressed my initial review comments.

-------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
