Reviewer's report

Title: Abnormal susceptibility to distracters hinders perception in early stage Parkinson's disease: a controlled study

Version: 3 Date: 6 December 2006

Reviewer: Eva Kemps

Reviewer's report:

General

I am satisfied with the additional changes made by the authors, and recommend that the manuscript now be accepted for publication without further revision.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
