Reviewer's report

Title: Endoscopic Management of Hypertensive Intraventricular Hemorrhage with Obstructive Hydrocephalus

Version: 2 Date: 29 December 2006

Reviewer: Andrea Martinuzzi

Reviewer's report:

General

---------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
The paper in now improved and can be accepted. There is one missing "be" in the upper part of the second last page of the text (... even if the whole clot may not BE suitable for endoscopic removal."

---------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
