Reviewer's report

Title: Intravenous immune globulin in hereditary inclusion body myopathy: A pilot study.

Version: 2 Date: 3 January 2007

Reviewer: Ikuya Nonaka

Reviewer's report:

General

Since the authors have well responded to the questions and criticism we raised, the manuscript is acceptable for publication with no further revision.

--------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
