Reviewer’s report

**Title:** Relationship of depression, disability, and family caregiver attitudes with the quality of life of Kuwaiti patients with multiple sclerosis: a controlled study

**Version:** 1  **Date:** 26 July 2007

**Reviewer:** Serkan Ozakbas

**Reviewer’s report:**

The manuscript is too long for little data. It should be shortened. WHOQOL BREF does not seem to be suitable QoL instrument as a general one. It would be better to use a MS-specific instrument.

**What next?:** Accept after discretionary revisions

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
