Reviewer's report

Title: Longitudinal proxy measurements in multiple sclerosis: patient-proxy agreement on the impact of MS on daily life over a period of two years.

Version: 3 Date: 6 February 2008

Reviewer: Michael Hutchinson

Reviewer's report:

This is a much improved manuscript. - much easier to read, if still a bit overlong
On page 11 the subheading should read "Factors affecting...." (not Factor effecting...). page 16 "an improvement IN agreement" (not OF)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
