Reviewer’s report

Title: A questionnaire-based (UM-PDHQ) study of hallucinations in Parkinson's disease

Version: 2 Date: 21 April 2008

Reviewer: Kenji Wada-Isoe

Reviewer’s report:

Comments to the authors
The authors have dealt with most of my queries satisfactorily and the paper is improved.

Minor Essential Revisions
The authors have corrected the abbreviation of MMSE to Mini Mental State Examination in the text, but unfortunately missed it in the list of abbreviation (page3)
