Reviewer’s report

Title: A pilot study of rivastigmine in the treatment of delirium after stroke; a safe alternative

Version: 2 Date: 29 August 2008

Reviewer: Paul Dautzenberg

Reviewer’s report:

The revised manuscript has only one minor point, needed to revised again:
In Patients and Methods, line 15 ...build up schedule.
I do not know if this is correct language.
Perhahps change in....start schedule.
