Reviewer's report

Title: Understanding Patients' Perspective in the Use of Generic Antiepileptic Drugs: Compelling Lessons for Physicians to Improve Physician-Patient Communication

Version: 2 Date: 28 January 2009

Reviewer: Günter Krämer

Reviewer's report:

major compulsory revisions: none

minor essential revisions:
- in the discussion of compliance / adherence problems the recent proposal of the term concordance should be considered (e.g. Bissell P, May CR, Noyce PR. From compliance to concordance: barriers to accomplishing a re-framed model of health care interactions. Soc Sci Med 2004; 58: 851–862)
- the use of a seizure diary for documentation of seizures and side effects should be encouraged

discretionary revisions:
- a few typing errors (e.g. Andermann instead of Andemann on page 8)

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
