Reviewer’s report

Title: The risk of adverse pregnancy outcomes in women who are overweight or obese

Version: 2 Date: 2 June 2010

Reviewer: Sohinee S Bhattacharya

Reviewer’s report:

Although some of the reviewers’ concerns have still not been addressed, but the authors have explained their inability to address these in their response to comments. I would encourage them to include these either as limitations in the discussion or anywhere else in the text as appropriate. I am particularly concerned that they present unadjusted RRs without any justification.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
