Reviewer's report

Title: Why don't some women attend antenatal and postnatal care services?: A qualitative study in Garut, Sukabumi and Ciamis districts of West Java province, Indonesia

Version: 1 Date: 26 May 2010

Reviewer: Sulochana Dhakal

Reviewer's report:

It is a nice research article. Research question is well defined. Study design is appropriate and well described such as triangulation. Sample size is acceptable. The article contents a standard reporting data. The limitations of study are clearly stated. The discussion and conclusion well balanced. All related works are acknowledged. The title and abstract clearly show the finding of the study. The writing is acceptable.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
