Reviewer's report

Title: Identifying acceptable postpartum intervention approaches to prevent type 2 diabetes in women with a history of gestational diabetes

Version: 2 Date: 2 February 2011

Reviewer: Catherine Kim

Reviewer's report:
clearly written as with the first submission and my concerns have been addressed.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests
