Reviewer's report

Title: Associations of maternal prepregnancy obesity and excess pregnancy weight gains with adverse pregnancy outcomes and length of hospital stay

Version: 2 Date: 25 July 2011

Reviewer: Marian Knight

Reviewer's report:

The authors have addressed the reviewers' comments adequately.

Minor essential revision: Results section, first paragraph final sentence "We have now added this result in the revised manuscript" should be deleted.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests
