Reviewer's report

Title: A randomized trial to investigate the effects of pre-natal and infancy nutritional supplementation on infant immune development in rural Gambia: The ENID Trial: Early Nutrition and Immune Development

Version: 2 Date: 17 August 2012

Reviewer: David Osrin

Reviewer's report:

The authors have responded to all my suggestions and answered my questions, and I have no further substantial comments.

A couple of typos...

P10> “Thymus size is assessed… “ No comma needed.
P10> “sagittal” not “saggital”.

I look forward to the results of the trial.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests. DO.
