Reviewer's report

**Title:** Levels and correlates of non-adherence to WHO recommended inter-birth intervals in Rufiji, Tanzania

**Version:** 3  **Date:** 12 November 2012

**Reviewer:** Sorina Grisaru-Granovsky

**Reviewer's report:**

Although the authors did not modify the manuscript with all the points raised they did change some and with the additional changes made (according to other reviewers' comments) I consider the manuscript acceptable for publication. Since this is a report from a difficult geographic area for such data collection and may be the publication will be a positive signal for others.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
