Reviewer's report

Title: Results from a study using misoprostol for management of incomplete abortion in Vietnamese hospitals: Implications for task shifting

Version: 1 Date: 29 November 2012

Reviewer: Thanapan Choobun

Reviewer's report:

This is an important study to promote the use of misoprostol for treatment of incomplete abortion, especially in the low resource setting. This article is recommended to be published.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
