Reviewer's report

Title: Results from a study using misoprostol for management of incomplete abortion in Vietnamese hospitals: Implications for task shifting

Version: 2 Date: 28 January 2013

Reviewer: Thanapan Choobun

Reviewer's report:

This study is a local, low resource country-based context. It showed an importance of using misoprostol for treatment of incomplete abortion. It should be accepted for publishing.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
