Reviewer's report

Title: Involvement of male in antenatal care, birth preparedness, exclusive Breast feeding and immunization for child in Kathmandu, Nepal

Version: 2 Date: 7 September 2012

Reviewer: Raymond Tweheyo

Reviewer's report:

Major Compulsory Revisions:
1. A detailed description of the sample size derivation and sampling strategy should be provided to allow for judgement on the validity, generalizability and enable replicability of the study.
2. More detail about data management and quality control is required
3. Please describe how the model was build and what variables were placed or removed in the adjusted analysis.

Minor Essential Revisions:
4. Consider providing a definition for male involvement
5. Engage a copy-editor to proof read and discard all minor typographical and grammatical errors
6. Consider alternative explanations for discussion of key findings

Discretionary Revisions:
7. All other details in the text that are suggestions for consideration

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
