Title: Family planning practices and pregnancy intentions among HIV-positive and HIV-negative postpartum women in Swaziland: a cross sectional survey

Version: 1 Date: 4 January 2013

Reviewer: Gretchen S Stuart

Reviewer's report:

This is an excellent and important article. The findings in this paper will help others research the important area of postpartum contraception, which consequently will increase unplanned and mistimed births, and improve birthspacing.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
