Reviewer's report

Title: Active and passive maternal smoking during pregnancy and birth outcomes: the Kyushu Okinawa Maternal and Child Health Study

Version: 2 Date: 3 July 2013

Reviewer: Andrew R Willan

Reviewer's report:

Minor Essential Revisions

In Table 4 it is not obvious what the p-values for trend represents. Since there are only two categories for exposure, there is no "trend".

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
