Reviewer's report

Title: Community awareness about risk factors, presentation and prevention and obstetric fistula in Nabitovu village, Iganga district, Uganda

Version: 3 Date: 7 August 2013

Reviewer: THECLA W KOHI

Reviewer's report:

Major compulsory:

The methodology section has been well addressed although the author has been silent on the theoretical framework. which is okay since she/he did not use it from the beginning of the study

Minor Essential Revisions:

The discussion part has been addressed by removing the repetitive areas

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
