Reviewer's report

Title: Developing a tool for obtaining maternal skinfold thickness measurements and assessing inter-observer variability among pregnant women who are overweight and obese.

Version: 2 Date: 3 February 2013

Reviewer: Suzanne Barr

Reviewer's report:

The author’s revisions have clearly and appropriately addressed the points raised, and the quality and clarity of the manuscript have been improved. The revised title also more accurately reflects the content of the paper.

Minor Essential Revisions: Spacing should be checked throughout the manuscript (e.g. final paragraph of the discussion).

No further revisions to recommend.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
