Reviewer’s report

Title: Factors affecting the use of prenatal care by non-western women in industrialized western countries: a systematic review

Version: 3 Date: 7 March 2013

Reviewer: Sarah Fredsted Villadsen

Reviewer’s report:

I find the revised manuscript very interesting and the changes made beneficial for the overview and understanding of the reader. As a consequence of the changes made, especially in point 2.4, it is now more analytic and gives new and very useful insight.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
