Reviewer's report

Title: Obstetric outcomes for nulliparous women who received routine individualized treatment for severe fear of childbirth - a retrospective case control study.

Version: 2 Date: 4 February 2014

Reviewer: Wendy Hall

Reviewer's report:
I have attached my comments and consider the requests I have made for changes as compulsory major revisions.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
