Reviewer’s report

Title:A comparison of maternal and neonatal outcomes between water immersion during labor and conventional labor and delivery

Version:2 Date:6 February 2014

Reviewer:Yaakov Beilin

Reviewer’s report:

my main concerns is the small number of enrolled patients and that it is not randomized.
I understand randomization is difficult but the number of patients is still too small to make any definitive conclusions

Level of interest:An article of limited interest

Quality of written English:Acceptable

Statistical review:No, the manuscript does not need to be seen by a statistician.
