Reviewer's report

Title: The prevalence of severe maternal morbidity and near miss and associated factors in Sergipe, Northeast Brazil

Version: 5 Date: 27 October 2013

Reviewer: Tom Witteveen

Reviewer's report:

The manuscript has much been improved. Some of my comments have not been changed. And there's no explanation given in a detailed cover letter including all the changes made.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
