Reviewer's report:

The authors have sufficiently addressed all of the reviewers’ concerns. The manuscript should be proofread prior to publication to correct minor grammatical errors (missing words, punctuation, etc.). A few I noticed:
- Introduction, paragraph 2, last sentence
- Methods, paragraph 2, need end quote
- Results, Benefits to Physical Activity, first sentence
- Results, "More Children," sentence 1

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
