Reviewer's report

Title: Provider Type and magnitude of childbirth related complications among women at community level in Kenya: a case-control study

Version: 2 Date: 4 July 2014

Reviewer: Elizabeth Echoka

Reviewer's report:

Current title but improved but still not clear: Provider Type and magnitude of childbirth related complications among women at community level in Kenya: a case–control study

Consider: Birth attendance and magnitude of obstetric complications in Western Kenya. a retrospective case-control study

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
