Reviewer's report

Title: A randomized controlled trial to assess the clinical and cost effectiveness of a nurse-led Antenatal Asthma Management Service in South Australia (AAMS study)

Version: 1 Date: 26 June 2013

Reviewer: NARAYAN JANA

Reviewer's report:

The study proposal is clinically relevant; method is scientifically valid and is likely to be reproducible. No modification is suggested.

In the fig. 1. Assessment of asthma control by research midwife at 24 (not 25 as written), 30 & 36 weeks gestation.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
