Reviewer's report

Title: A randomized cross over trial of tolerability and compliance of a micronutrient supplement with low iron separated from calcium vs high iron combined with calcium in pregnant women [ISRCTN56071145]

Version: 6 Date: 24 February 2006

Reviewer: Anwar T. Merchant

Reviewer's report:

General

In the results it would be good to see the numbers and percent of persons dropping out of the study in each of the groups.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
