Reviewer's report

Title: Severe Respiratory Distress in Term Infants Born Electively at High Altitude

Version: 2 Date: 21 December 2005

Reviewer: Daniele Trevisanuto

Reviewer's report:

General
In this new version, the manuscript is acceptable. The Authors responded to all the reviewer's comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
They were adequately revised.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
They were done following reviewer's suggestions.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
