Reviewer's report

Title: Endothelial Nitric Oxide Synthase Gene Polymorphism (Glu298Asp) and Development of Pre-eclampsia: a nested case-control study and a meta-analysis.

Version: 1 Date: 12 July 2005

Reviewer: Gabriella Pridjian

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

1. Reference 28 should not be superscript.
2. Reference 30 was cited before reference 29 in the manuscript.

Discretionary Revisions (which the author can choose to ignore)

1. First paragraph in the results section: The initial results refer to their aspirin protocol which is not a subject of this report. This can be omitted.

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

I declare that I have no competing interests.
