Title: Traditional beliefs and practices in the postpartum period in Fujian Province, China: a qualitative study

Version: 1  Date: 13 December 2006

Reviewer: ida V Martinson

Reviewer's report:

General
I support the publication of this manuscript. It is very interesting and am glad that it compares the rural and urban situations however, I do not seem to notice much differences in their responses. We are so little about China and its practice of doing the month so I do recommend publishing this piece.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
