Title: Use of real time continuous glucose monitoring and intravenous insulin in type 1 diabetic mothers to prevent respiratory distress and hypoglycaemia in infants

Version: 6 Date: 14 May 2008

Reviewer: Kai J Buhling

Reviewer’s report:

Dear authors,

the manuscript is better after revision. I would recommend to organize the chronology of the figures similar to their reference in the text body.

Nice work, although I am still missing some statistical power!

Kind regards
Kai Buhling
