Reviewer's report

Title: Epidemiology of nausea and vomiting of pregnancy: Prevalence, severity, determinants, and the importance of race/ethnicity.

Version: 2 Date: 21 April 2009

Reviewer: Sohinee S Bhattacharya

Reviewer's report:

I still feel that an explanation of using logistic regression for assessing a common outcome in a cohort study should be given in the methodology or Discussion section.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
