Reviewer's report

Title: Aberrant expression of CD133 protein and its correlation with Ki-67 and prognosis in gastric adenocarcinoma in China

Version: 2 Date: 9 April 2010

Reviewer: Chrisoula Scopa

Reviewer's report:

The resubmitted manuscript, entitled: Aberrant expression of CD133 protein and its correlation with Ki-67 and prognosis in gastric adenocarcinoma in China, authored by Po Zhao, Yazhuo Li and Yali Lu, still needs some minor revisions, such as:

1. The authors have to decide which of the terms prefer to use "gastric cancer, stomach cancer, gastric adenocarcinoma"
2. The symbol for temperature is not clear (unless it is disagreement with the fonts of my computer)
3. Brain medullary blastoma (page 5, last line), reads as medulloblastoma
4. Never start a sentence with numbers (page 4 and 5, last and first line, respectively).

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
