Reviewer’s report

Title: Bevacizumab plus irinotecan improves both response and survival in patients with recurrent malignant glioma: a survival gain analysis

Version: 2 Date: 18 April 2010

Reviewer: Patrick Wen

Reviewer’s report:

The revision addresses many of the concerns of the reviewers and is an improvement.

The discussion remains long.

Minor Essential Revisions

Page 11, Discussion: typographic error. “Directlyiny” should be “directly”.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
