Reviewer's report

Title: Induction of cytotoxic T lymphocytes primed with Tumor RNA-loaded Dendritic Cells in Esophageal Squamous Cell Carcinoma: preliminary step for DC vaccine design

Version: 1 Date: 16 December 2009

Reviewer: Hans Georg Rammensee

Reviewer's report:

This is a good start to continue with a clinical study.

Minor Essential Revisions:
check spelling; in particular 500 V, not 500V, eg., and so on
Table 1: Data from one patient? or average? Then add SDs.
Fig. 1 is of lousy quality - improve

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

Yes;
I am cofounder of a company dealing with molecularly defined mRNA vaccination (CureVac, Tübingen)
