Reviewer's report

Title: MicroRNA-21 inhibitor sensitizes human glioblastoma cells U251 (PTEN-mutant) and LN229 (PTEN-wild type) to taxol

Version: 4 Date: 21 January 2010

Reviewer: Yong Li

Reviewer's report:

No revision on science is needed. Some language corrections would be nice.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
