Reviewer's report

Title: The CS1 segment of fibronectin is involved in human OSCC pathogenesis by mediating OSCC cell spreading, migration, and invasion

Version: 4 Date: 11 June 2010

Reviewer: Steven Akiyama

Reviewer's report:

The authors appear to have answered all of my concerns and I can now recommend publication in its current form.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
