Reviewer's report

Title: Putative contribution of Natural Killer cells in cetuximab treatment efficacy in first-line metastatic colorectal cancer patients.

Version: 3 Date: 27 April 2010

Reviewer: Federica Di Nicolantonio

Reviewer's report:

The authors have addressed most of the concerns and criticisms raised by the reviewers.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

Yes, while this manuscript was undergoing revision, I have been collaborating with Dr Sabine Tejpar (a co-author of this manuscript) on an unrelated manuscript, which has not been submitted at time of writing (but will likely be in the next few weeks).
